Define applicators are designed with the innovative 360° cooling technology. To provide a deeper cooling effect.

Working modes:

04 SIMULTANEOUS AREAS IN 45 OR 70 MINUTES

45 min or 70 min
working modes: 45
minutes to reach
“cooltech” results
and 70 to improve
the results

360 ° Cooling:

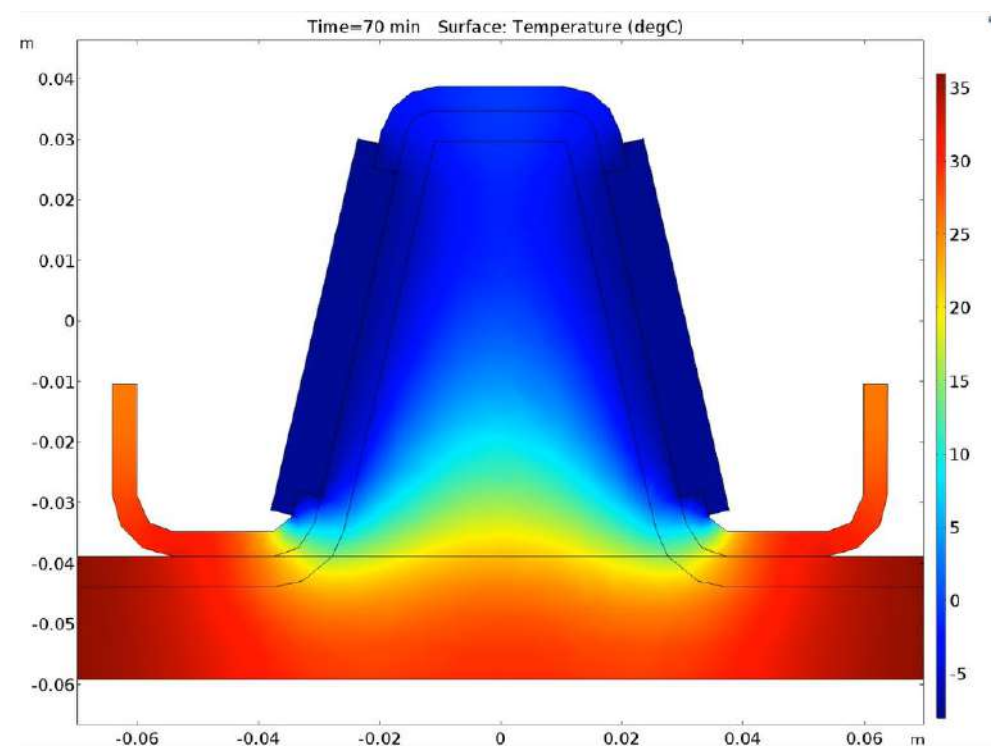

Define applicators are designed with the innovative **360° cooling** technology.

The cooling plates that surround the interior of the applicator cool homogeneously the entire treatment area, providing extraordinary results.

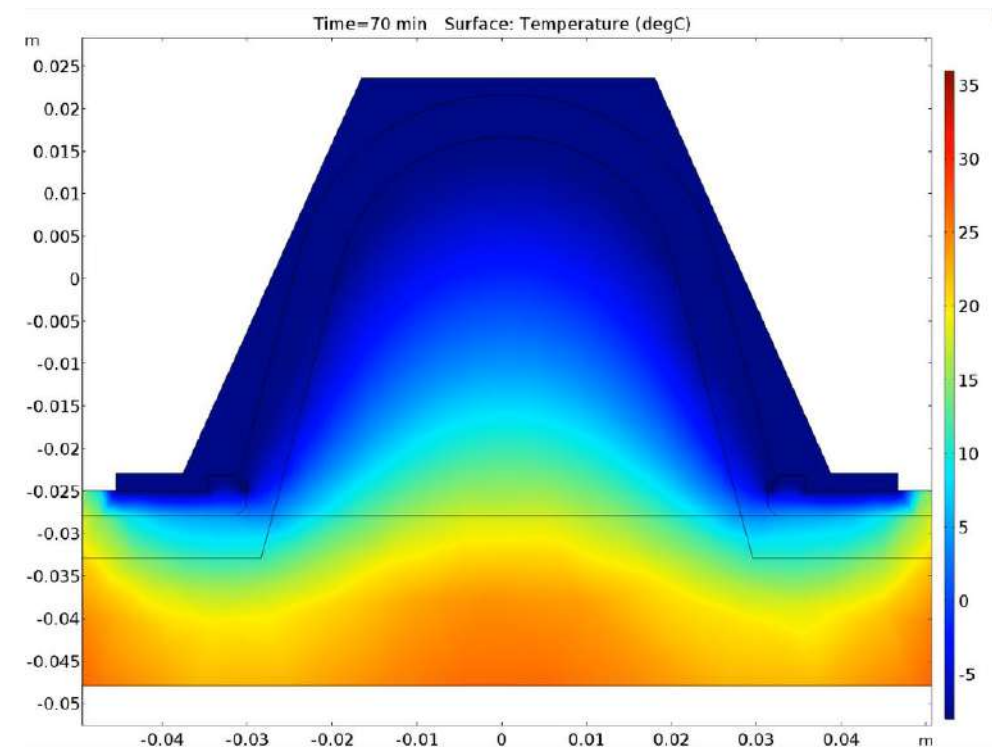

Temperature:

Examples Straight Applicators

cooltech
-8°C 70 min

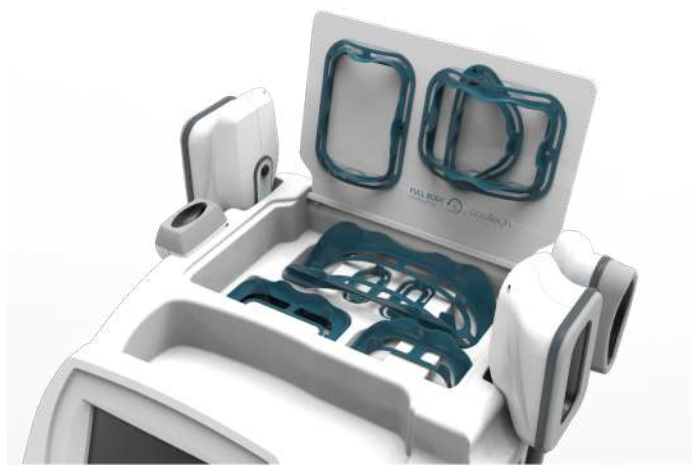

cooltech_define
-10°C 70min

Cooltech Define
works at **-10°C** for a
higher percentage of
eliminated fat

Better treatment design:

09 DIFFERENT
TEMPLATES

Safer:

RFID reader: avoids the use
other pads in the market and
guarantees the safety during
the procedure

Better results:

45 'for the same result
as with cooltech in 70'

4 simultaneous
applicators for more
complete treatments

Handpieces that
eliminate more% of
fat per session

Full body
contouring in 2h

100% safe
Treatment , twice
effective, lower
working temperature
and more applications
in the same sesión.
