# THE POWER TO TRANSFORM

The Tri-Wave MD signifies a new era in LED Phototherapy treatments pushing the boundaries of medical LED technology and next level clinical application.

Delivering maximum power via breakthrough targeted ceramic technology and smart integrated cooling, this is the ultimate medically certified LED device for skin care professionals who want to deliver fast, unrivalled results for a wide range of indications.

REJUVENATION  
ACNE  
PIGMENTATION  
REDNESS  
PSORIASIS  
WOUND HEALING  
PAIN  
PRE/POST TREATMENT

## THE POWER OF LIGHT

MOST CLINICALLY PROVEN WAVELENGTHS

### Dermalux Blue 415nm

**BLUE 415nm** is the most proven wavelength to destroy the bacteria which causes acne and improve skin clarity without irritation. Powerful antibacterial action also has a calming effect to reduce redness and inflammation.

### Dermalux Red 633nm

**RED 633nm** supercharges cell energy to accelerate repair and renewal, boost collagen synthesis, increase hydration and enhance circulation to reverse the visible signs of ageing. Ideal for restoring vitality and glow.

### Dermalux NIR 830nm

**NEAR INFRARED 830nm** targets deeper cells to trigger the wound healing process, calm redness and irritation, reduce pigmentation and promote healthy skin. Combine with Red 633nm for advanced rejuvenation benefits.

# TRI-WAVE MD ADVANTAGES

- ✓ **Breakthrough**, ceramic LED technology for maximum power
- ✓ **Targeted** light technology for focused, precision photon delivery
- ✓ **Smart** integrated cooling for consistent treatment performance
- ✓ **Articulated** LED panel design for face, scalp and body
- ✓ **Advanced** Pre-set, Custom and PDT protocols
- ✓ **Upgradeable** software to maintain the latest updates
- ✓ **Manufactured in the UK** by Aesthetic Technology Ltd

## PHOTODYNAMIC THERAPY (PDT)

The Tri-Wave MD offers the gold standard in Photodynamic Therapy (PDT) due to its large treatment application for the face, head and body, custom energy delivery via joules or time and specific PDT mono and polychromatic wavelength protocols.
